Dear Parents:

The DJUSD Student Nutrition Services Department is excited to offer you *MyNutriKids* — a service that makes paying for school meals easier. *MyNutriKids* allows you to:

- Deposit money into a school meal account for your child
- Check your child's account balance
- Read your child's eating history report, which lists:
 - The school meals your child bought in the last 30 days,
 - The cost of those meals, and
 - The date and time your child bought them.

MyNutriKids makes paying for your child's school meals convenient and secure. The attached page tells you more about the program and guides you through the easy online account set-up.

If you have questions about *MyNutriKids*, please contact Student Nutrition Services at:

MyNutriKids: Information for Parents

MyNutriKids is available for students at any DJUSD school, including Martin Luther King Jr. High School and DSIS.

How do I sign up?

You will need your child's student ID number and school zip code. You can get these by contacting your child's school or Student Nutrition Services. Then:

1. Visit www.MyNutriKids.com
2. Click *Sign Up* and put in the required information.
3. Click *Finish*.

What do I do when I sign up?

Next, add students to your family account:

1. Log in at www.MyNutriKids.com
2. Click *MyKids* from the main menu or top navigation bar. This is a list of the students on your account (it will be empty on your first visit).
3. Click *Add Child*. Put in the required information.
4. Click *Add* next to your child's name.

How do I add more than one student?

Once you have added one student, just click *Add Child* again to sign up other children.

Is MyNutriKids free?

You will be charged a \$1.75 fee for each deposit transaction to cover the bank fees. If you deposit money into several children's accounts at the same time, that counts as one transaction. (DJUSD does **not** profit from the use of this site.)

Free Meal—To offset this fee, Student Nutrition Services will give your child one free meal for every \$65 you put in his/her account. For example, a \$65 deposit will include a \$1.75 fee, but in return your child will get a free meal worth \$3.25.

How do I put money in my child's school meal account?

1. Log in at www.MyNutriKids.com
2. Click *Deposit Money* (next to *Add Student*).
3. Type an amount in the *Deposit* column next to each child's name.
4. Click *Calculate*.
5. Click *Make Deposit*. You will be sent to the PayPal website.
6. Enter in your payment information. You can pay with a PayPal account or with a credit or debit card.
Note: MyNutriKids does not save your credit card information.
7. Click *Pay Now* when you are ready.

Important—If more than one child is signed up, enter a **separate** amount for **each child**. If you type an amount next to just one child's name, only that child can use the money.

What happens after I make a deposit?

Once your bank approves it, the DJUSD Point-of-Sale system will download the transaction and update your child's account balance.

When can I see my child's eating history report?

You will not be able to see what your child bought before you sign up for MyNutriKids. But once your child is signed up, the program will keep track of the school meals s/he buys.

Can I pre-pay school meals with a check instead?

Yes. If you choose not to use the online pre-payment service, you may also pay in advance by check. Make checks out to: DJUSD Student Nutrition Services.

Important—Please write your student's full name on the check! If you are paying for several students enrolled at one school, you may write one check. However, if you have students enrolled at *different* schools, you need to write a check for each student.
