**Davis Joint Unified School District** Winfred B. Roberson, Jr. • Superintendent

Dear Parent or Guardian,

The Healthy Schools Act of 2000 requires that all school districts provide parents or guardians of students with annual written notification of expected pesticide use on school sites. Attached is the list of pesticides that it is expected the Davis Joint Unified School District might use in the 2011/2012 school year. Use of many of these may not be required depending on conditions. No pesticides are used in individual classroom garden plots unless specifically requested by the person responsible for maintaining the garden.

Further information on pesticides and their alternatives may be obtained at the following website:

<http://www.schoolipm.info/>

Prior to every application, signs are posted at the school site indicating the date of intended application and the pesticide to be used. Parents or guardians may register to receive individual prior notification of pesticide applications. Those listed on this registry receive notification of intended pesticide application at least 72 hours before pesticides are applied. If you would like to be notified every time we apply a pesticide in the district, please complete and mail the form below to:

Davis Joint Unified School District
