## I. Data and Access

### DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP], test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners.

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## II. About This School

### School Description and Mission Statement (School Year 2010-11)

This section provides information about the school, its programs and its goals.

The Fairfield Mission is to establish a school that stimulates creativity and curiosity, and challenges our students to reach their highest potential. We provide an environment that is a safe, friendly, joyful place to learn where children feel free to explore and discover, to experiment with ideas, and to take creative risks. We foster a learning community where, with effort and concentration, and with strong home and school support, all children can successfully acquire the basic skills needed to become lifelong learners and to participate fully in society and the workplace. We believe that thinking must pervade the curriculum for all students in all grades. Therefore, we seek to provide a curriculum for all children that engage them as active and responsible learners, encourage student collaboration, and provide students with real-life learning activities. We teach students to think, analyze, and find acceptable solutions to problems. Because we recognize that children have different learning styles, we employ a variety of teaching strategies. We pledge that our evaluation of student progress be sensitive and thorough. We stand for the universal moral values that all members of our community can support honesty, respect, and compassion. We revere self-expression and we cherish diversity. We model the behavior we expect of our children, and we demonstrate our commitment to collaboration and shared decision-making through participation in the leadership of our school. Our strength lies in our bond, in the interdependence of willing parents, teachers, and children. We believe and delight in the unlimited potential of our students.

### Opportunities for Parental Involvement (School Year 2010-11)

This section provides information about opportunities for parents to become involved with school activities, including contact information pertaining to organized opportunities for parental involvement.

At Fairfield Elementary, all families are required to hold a classroom, PTA or other school support job. The minimum work requirement of one job per family involves 2 to 2 1/2 hours per week. Family jobs include Classroom Aide, Science Coordinator, PTA Officer, Newsletter Editor, Junior Great Books leader, Lunch Aide and many others. Taking an average of 50 families, Fairfield is served by well over 100 hours per week of parent volunteer time.

Each family is also required to complete six hours of "work party" time during the school year.

Fairfield also experiences consistently well-attended PTA meetings, averaging 25 - 50% of families in attendance.

## III. School Climate

### School Safety Plan (School Year 2010-11)

This section provides information about the school's comprehensive safety plan.

Fairfield Elementary is working diligently with the district office to create a more comprehensive and consistent emergency response plan. The staff worked with district personnel to do a thorough inventory of all emergency response equipment and postings. Expired items were replenished and every room now hosts a one page emergency response sheet near the door. An evacuation map is also posted near the door. We also continue to work with Maintenance and Operations to make sure that buildings and the playground are up to code. Fairfield is now having monthly emergency response drills that include fire, earthquake, lock down, lunchtime incident, and all school evacuations. These drills follow district established procedures. Because of the tight community and consistent parent involvement, the Fairfield climate is one that is inclusive, nurturing, and challenging.

## IX. Student Performance

### Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key components, including the California Standards Tests (CSTs); the California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA). The assessments under the STAR program show how well students are doing in relation to the state content standards. The CSTs include English-language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and nine through eleven. The CAPA includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations. The CMA is an alternate assessment that is based on modified achievement standards in ELA for grades three through nine, mathematics for grades three through seven and Algebra I and science in grades five, eight, and ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations. On each of these assessments, student scores are reported as performance levels. Detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, can be found on the CDE Standardized Testing and Reporting (STAR) Results Web site at <http://star.cde.ca.gov>. Program information regarding the STAR Program can be found in the Explaining 2009 STAR Program Summary Results to the Public guide at <http://www.cde.ca.gov/ta/tg/sr/documents/pkt5intrpts09.pdf>. Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

Detailed information regarding this test, and comparisons of a school's test results to the district and state levels, may be found on the CDE Physical Fitness Testing Web page at <http://www.cde.ca.gov/ta/tg/pf/>. Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy. ## X. Accountability

### Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the CDE Academic Performance Index (API) Web page at <http://www.cde.ca.gov/ta/ac/ap/>.

### Academic Performance Index Ranks - Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

API Rank	2008	2009	2010
<b>Statewide</b>	7	9	9
<b>Similar Schools</b>	N/A		

### Academic Performance Index Growth by Student Group - Three-Year Comparison

This table displays, by student group, the actual API changes in points added or lost for the past three years. Note: N/A means that the student group is not numerically significant or data were not available.

Group	Actual API Change		
	2008-09	2009-10	2010-11
<b>All Students at the School</b>	71	13	-9
<b>Black or African American</b>

### Adequate Yearly Progress

The federal Elementary and Secondary Education Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Adequate Yearly Progress (AYP) Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

### Adequate Yearly Progress Overall and by Criteria (School Year 2010-11)

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the six AYP criteria described above.

### Federal Intervention Program (School Year 2011-12)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP.
