For More Information

We welcome your comments and questions as we work to ensure our students continue to receive a high-quality education. The facilities master planning process is community-driven, and we value your feedback. **For more information, please visit www.djUSD.net/facilityplanning.**

Information from Davis Joint Unified School District

MAINTAINING EXCELLENCE & SAFETY IN DAVIS SCHOOLS

High-Quality Education in Our Community

As one of the highest-performing districts in our region, the Davis Joint Unified School District (DJUSD) has a proud history of strong academic achievement. DJUSD equips each student with the knowledge, skills, character and well-being to thrive in an evolving world. Our great schools help make Davis a desirable place to live, keeping our community and our property values strong.

Providing a 21st-Century Learning Environment

Many of the classrooms and buildings in our Davis schools are over 50 years old and require updates. Old plumbing and electrical systems need replacement, and academic facilities need earthquake safety upgrades to provide a safe, healthful learning environment for students. Improvements are also needed for campus security to control access and prevent school intruders. As requirements for a competitive education rapidly evolve, our classrooms and labs need to be modernized to meet today's educational standards for science, technology, engineering and math.

Planning for the Future of Davis Schools

DJUSD is working to complete a thorough facility master plan, which has already identified over \$450 million in facility needs in Davis schools. One option to address these needs would be to place a school improvement bond measure on an upcoming ballot. While a single bond measure would not be able to address all needs in our schools, it would start a first phase of improvements to maintain high-quality education for all Davis students. This facility master planning process is community-driven, and we invite you to send your input to facilityplanning@djusd.net.

Local Funding for Local Schools

To address identified needs in Davis schools and continue preparing students for future success, the DJUSD Board of Education is considering placing a \$150 million bond measure on the November 6, 2018 ballot.

If approved, the proposed measure would:

- Improve campus safety and security at all schools
- Modernize science, technology, engineering, arts and math classrooms and labs
- Update classrooms, science labs, innovation labs, athletic and other school facilities to meet current academic and safety standards
- Keep schools clean, well-maintained and in good condition
- Replace aging plumbing and electrical systems
- Improve school access for students and staff with disabilities and inclusiveness for all students

Strict Fiscal Accountability Provisions

- All revenue from the proposed measure would benefit Davis schools, be controlled locally and could not be taken by the State
- No funds could be spent on administrators' salaries or benefits
- A citizens' oversight committee and annual audits would ensure funds are spent as promised
- The proposed measure would cost approximately \$60 per \$100,000 of assessed value (not market value) per year

You're Invited

The DJUSD Board of Education will discuss placing a school improvement bond measure on the November 2018 ballot at the upcoming board meeting on Thursday, June 14. Please join us to share your opinion and learn more.

When: Thursday, June 14, 7:00PM
Where: City of Davis Community Chambers
23 Russell Boulevard
Davis, CA 95616
