

## **ADDENDUM #1**

**PROJECT: MULTIPLE SITES ROOFING PROJECT (#720-06-2223)**

---

1. See attached aerial views of school sites that are part of this project for clarification on location of rooms where the roofs will be replaced.
2. Davis HS Scope Clarification – Room N1A scope is as follows:
  - Clean and remove debris from roof and gutters.
  - Install 2X4 wood nailer around entire perimeter to match height of new insulation.
  - Fill flutes on existing metal roof with 3" thick flute filler insulation.
  - Install one layer of ½" Dens-Deck over insulation and mechanically fasten to the existing metal roof.
  - Install mechanically fastened 45-Mil TPA single ply roof system.
  - Edge metal will have 4" face and be installed with a continuous cleat.
  - Install new seamless gutters and 24 gauge downspouts.
3. DaVinci HS Scope Clarification – gutters will be left in place. Drip edge on rake edges will measure 4" and be installed with a continuous cleat.
4. North Davis ES Scope Clarification – Drip edge on rake edges will measure 4" and be installed with a continuous cleat.
5. Cesar Chavez Scope Clarification – Include two new Flashco type vents with PVC flange to replace existing vents.
6. Emerson Scope Clarification – Remove vents and abandoned boiler vent penetration.
