Note 2: Some students are enrolled in more than one type of course, and a few are also enrolled in more than one course of a given course type. These tables count them one time for each course type.

Note 3: For Band, Total Participation by Course School does not match Grand Total, because there is one 12th Grader who is enrolled at two different Course Schools and, therefore, counted twice in the Course School table.

Note 4: Student data are not masked for general program enrollment.
