2021-2022 School Accountability Report Card

(Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2020-21 Teacher Preparation and Placement

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

The school's permanent buildings are approximately 50 years old. In the fall of 2005, the school district completed work on an extensive modernization plan for Holmes that includes interior remodeling, a new data and electrical backbone, accessibility improvements for disabled students, and structural repairs to all existing buildings. Over the last ten years, we also added student and staff bathrooms and replaced the roofs on all original buildings and updated our HAVC systems.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	67	N/A	69	N/A	47
Mathematics (grades 3-8 and 11)	N/A	69	N/A	61	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Our school's annual plan and its budget are approved by our School Site Council, which includes parents, staff, and student members. The plan will be approved on April 13, 2023. This year we will be looking for parent volunteers to be part of our PBIS and MTSS committee.

We have an English Language Advisory Committee, an active PTA, a Positive School Climate committee, an active Student leadership class, active ASB officers, and strong music booster groups. We also have many parents volunteer to support our athletic teams. Parents volunteer for curriculum advisory groups such as AIM and Superintendent Advisory. Many also volunteer for site supervision, library assistance, new student orientation, on site field trips, and classroom support. To find out how to volunteer, contact Ellen Shields, Head Counselor.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	2.73	1.77	2.45
Expulsions	0.00	0.00	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

Davis schools place the highest priority on student safety. We review emergency plans frequently and the 22-23 School Safety Plan was approved by the Holmes Site Council on 11/10/2022. Holmes Junior High holds student fire and earthquake drills twice a year as well as annual training on safety procedures with staff. The district's careful use of resources ensures that students have access to clean and safe facilities. Holmes has several campus supervisors who monitor the grounds and address student safety needs. Visitors must check in with the office, sign in and wear a badge identifying their presence on campus. All campus facilities have both phone and intercom access. Each classroom is equipped with an Emergency Kit in a clearly identified location. During the pandemic additional safety protocols have been implemented. Holmes Medical Response Team participated in a Project ADAM training.

Professional Development

The school has 1-hour sessions dedicated to professional development each Wednesday for teachers/staff to attend (30 days for 1-hour each). Additionally, sites use portions of their return to school teacher work days for professional development. Davis Joint Unified School District focuses on professional growth offerings on our mission and objectives. Our focus is given to professional learning that promotes DJUSD goals of 21st Century Teaching and Learning, Closing the Opportunity and Achievement Gaps, and Creating Safe and Inclusive Environments. DJUSD goals also include professional learning structures that support teaching and learning that will build student competencies identified within our Graduate Profile. These areas of focus were developed with wide-scale stakeholder input and are embedded within our Local Control Accountability Plan.

Davis Joint Unified School District uses a variety of professional learning models to engage staff in their continued growth. Built on the foundation of internal expertise and consultants from outside our district, staff have opportunities during the school year and summer to complete professional development learning episodes and time to implement best practices learned. These activities are supported by federal, state, and local funding as well as generous local parcel taxes. The professional growth occurring in Davis Joint Unified School District has a heavy emphasis on collaboration where time is reserved weekly for dedicated site-based staff collaboration in grade level or departmental teams under the direction of site administrators. Staff also has the opportunity to collaborate with grade-level/content peers. Davis Joint Unified School District also has instructional coaches that provide professional growth opportunities with model lessons, collaborative planning, and in-context learning.

Examples of recent Davis Joint Unified School District professional learning include:

- Comprehensive site focuses on the foundational understanding, implementation, and sustenance of MTSS and PBIS
- Next Generation Science Standards (NGSS)
- Ethnic Studies Institute to develop and support Ethnic Studies teachers, in addition to Ethnic Studies framework and curricular supports from the UC Davis History Project
- Reading Apprenticeship literacy series and mentorship through WestEd
- UC Davis Mathematics Project Teacher Leadership program (K-12) trained math teachers, instructional coaches, and some administration in the Common Core State Standards and progression of mathematical practices
- Elementary and Secondary Summits, where DJUSD staff-led sessions in best practices and promising innovation pilots
- Yolo County Mental Health First Aid
- National Equity Project to support the DJUSD Administrative Leadership Team, students, and staff in developing capacity as equity leaders
- Mindful Schools where each site sent a team to learn mindfulness practices for school settings
- Elementary and Secondary Canvas resource pages
- K-6 formative assessment and personalized curriculum using the i-Ready Diagnostic Assessment platform
- Site developed training (TK – 12) based upon needs articulated by staff, parents, and students to meet specific needs and goals. Sites develop professional growth with the support of outside expertise, district leadership, and staff
